

U. S. Steel

Protecting quality healthcare while limiting employee cost increases.

No employee
cost for GLP-1
prescriptions

Urgent Care
copay

~~\$30~~ \$20

No employee
cost for
telemedicine
visits

USS pays **more**
than 96% of
healthcare
costs per
employee

Healthcare costs are rising across the country.

Under this proposal, U. S. Steel would continue paying most of those increases while limiting employee deductible increases and maintaining quality healthcare coverage for employees and their families.
